**AND MORE THAN 60 PROJECTS**

# WE ALWAYS START WITH THE MAIN THING

Getting involved

Systematize

Asking **the right** questions

We offer the most suitable solution

We take responsibility for the implementation of this solution

# WORKING ITERATIVELY ON A FAST FEEDBACK CYCLE

## CORRECTION

- The process is ready for adaptation at any time
- The decisions made affect the development already at the next iteration

## RETROSPECTIVE

- You receive accurate information about the progress of work in a timely manner
- We do not hush up emerging issues and problems
- We improve the process every iteration

# PUTTING INTO OPERATION

**SEAMLESSLY**

Documentation, user training

**RELIABLE**

Automated testing and SLA

**RESPONSE TO INCIDENTS  
BEFORE THEY  
BECOME A PROBLEM**

On-Call support, proactive monitoring and  
triage system

# SUPPORT LONG AND HAPPYLY

You can make a small revision or return to full-fledged development at any time and without long preparations. This is one of the key benefits of iterative development, and we unlock this superpower for you.
